## Public Advisory

The Baton Rouge Police Department has received numerous complaints relative to a company that is here in the Baton Rouge area attempting to sell magazines. The company employees are walking from door to door with a magazine brochure attempting to sell magazines at a discount price.

This company does not have a City-Parish permit, thus they do not have permission to sell items in the Baton Rouge area. There has been one reported incident in which a peddler stole items from a customers home.

We advise for Baton Rouge citizens to call the police if you see these individuals in your neighborhood.
